

Transform your email environment into a secure communications workspace

Advanced Message Control | E-signature | Secure File Transfer

Email privacy for any system, any device

Be the strongest link in your customer-partner security loop. Keep your most sensitive data out of reach of cybercriminals, even when sending outside your network.

AppRiver Email Message Privacy makes it simple to send and receive secure messages, request or provide legally valid electronic signatures, and share large files directly from a user's existing email address. It all happens with real-time message tracking and control.

FEATURES:

- Secure message exchange
- Advanced message control and notifications
- Large file transfer—up to 100 GB
- Simple and secure e-signature capability
- Full mobile functionality
- Integrates with Single Sign On (SSO) environments
- Custom branding available
- Only pay for Professional users; Guest users are free

BENEFITS:

- ✓ Satisfy regulatory requirements such as HIPAA, GLBA, E-SIGN, and more
- ✓ Bolster customer trust with encryption and branding
- ✓ Save time configuring to the business' needs with simple management and support
- ✓ Full tracking visibility and rights management of messages
- ✓ Simple to manage and support with Secure Cloud

"AppRiver transports emails through its own secure, off-network system so attackers have little chance at getting the info to begin with, let alone decrypting it."

— Robert Paul, New Hampshire Retirement System

WHY NOW?

With regulatory liabilities increasing and customer trust decreasing, secure business communications are a necessity. Businesses who protect data and provide their employees and customers with true email message privacy deflect audits, guard against breaches, and permit freer, more effective communication.

WHY EMAIL MESSAGE PRIVACY?

As an integral part of Secure Cloud, Email Message Privacy works seamlessly with AppRiver's other Security, Compliance, and Productivity services in our Secure Suite. Together, they form a fully integrated platform that allows partners and customers to create a secure, modern workplace.

By 2023, 65% of the world will be covered in data privacy regulations, up from 10% today.

— Gartner
