

Secure the inbox, guard against threats, and protect the business and end users

Antispam and Antivirus | Advanced Threat Protection | Intuitive Quarantine

Don't let the inbox be the weakest link in your company's security posture. AppRiver Email Threat Protection provides multi-layered filtering that permits legitimate email while keeping out malicious threats such as phishing, impersonation, malware, ransomware, and spam-type messages.

FEATURES:

- Adaptive, machine learning capabilities
- Multi-layer filtering (envelope, header, body, attachment, URL analysis)
- Link protection (Time-of-click analysis)
- Attachment assurance—quarantine and sandboxing (optional)
- Message retraction for Microsoft 365 environments (optional)
- Simple, yet comprehensive and flexible controls
- Security information and event management (SIEM) integration
- Email continuity (optional)
- 24/7/365 Real-time threat analysts
- Phenomenal Care support

BENEFITS:

- ✓ Helps prevent security breaches by protecting a major business vulnerability
- ✓ Provides strong security and defense against existing and evolving threats
- ✓ Easy to optimize per business needs
- ✓ Keeps employees secure and efficient by reducing unwanted and malicious emails
- ✓ Simple to manage and support with Secure Cloud

"AppRiver is a best practices solution that anyone with secure data should be using."

– Robert Paul, New Hampshire Retirement System

WHY NOW?

With increases in social engineering, broad-based spam, and targeted attacks, cyber criminals are exploiting known vulnerabilities in the biggest email providers to steal any possible privileged information. In many cases, businesses don't catch the breach, don't know how to assess the damage, or don't have tools for remediation.

WHY EMAIL THREAT PROTECTION?

According to [Verizon](#), 90% of threats start with email. Email Threat Protection ensures that a major business vulnerability is secured with a sophisticated and effective solution that's easy to implement and manage. Plus, as an integral part of Secure Cloud, Email Threat Protection works seamlessly with AppRiver's other Security, Compliance, and Productivity services in our Secure Suite. Together, they form a fully integrated platform that allows partners and customers to create a secure, modern workplace.
